How Many Times was each Employee assigned as Sales Rep to an Invoice in their own Birth Month?

Example: Jane Peacock was born in August. How Many Invoices, dated in August, is she the Sales Rep for?

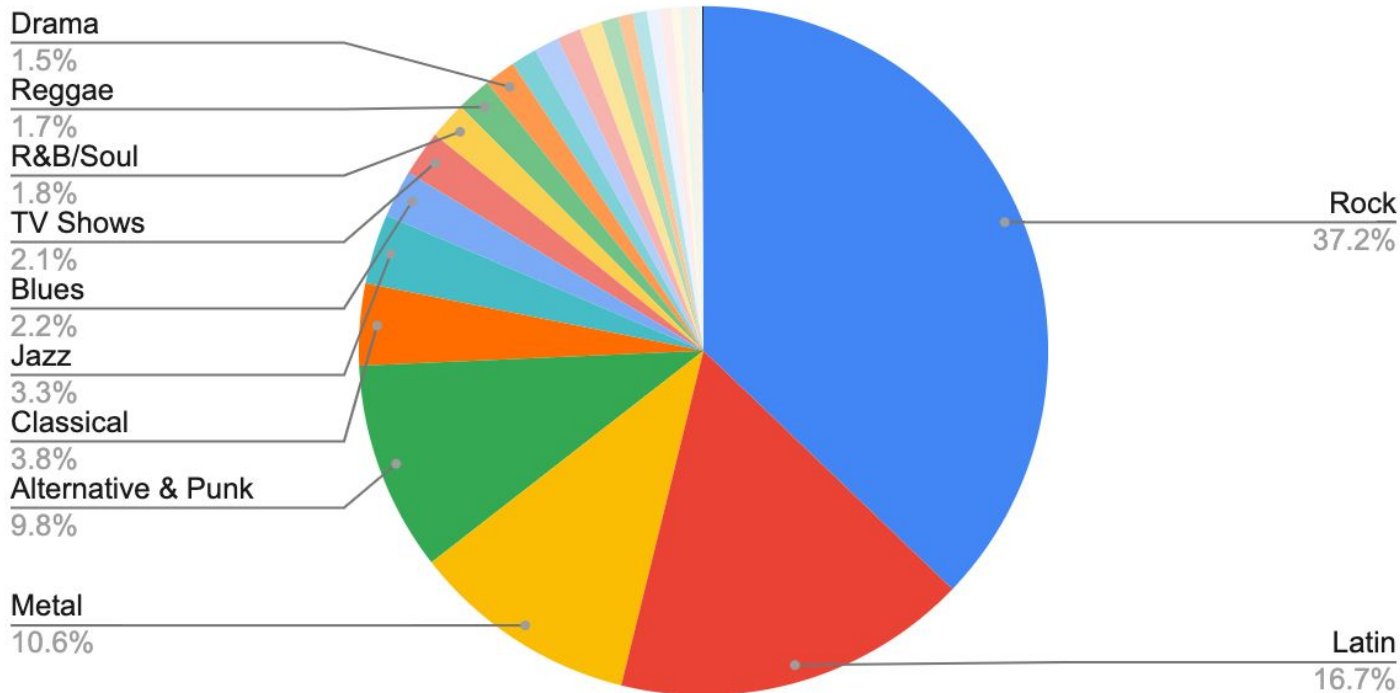

Jane Peacock and Margaret Park were both, coincidentally, assigned an invoice of the same month as their own Birth Month. It happened 13 times to each of them.

It only happened to Steve Johnson 12 times.

# Which Genres are most commonly added to Playlists?

## Which Genres are most commonly added to Playlists?

Each Percentage is the Fraction of Playlist entries of that Genre

Rock songs comprise 37.2% of all Playlist entries.

Latin songs are next most playlist-worthy, according to the data, at 16.7% of all entries.

Note that a single song can occur more than once if it is added to multiple playlists.

Also note that Google Sheets computes these % automatically with no further processing from the raw count() data from the SQL query.
